Professional Summary

Software Developer with hands-on experience building responsive, scalable web applications using React, Next.js, TypeScript, JavaScript, and Tailwind CSS. Experienced in translating UI requirements into reusable components, integrating RESTful APIs, building responsive interfaces, and working across frontend and backend systems. Strong foundation in software engineering, data structures and algorithms, Git, and performance-focused development.

Education

Addis Ababa University <i>B.Sc. in Software Engineering</i>	Addis Ababa, Ethiopia
Africa to Silicon Valley (A2SV) <i>Software Engineering Trainee</i>	Addis Ababa, Ethiopia
St. Gabriel School <i>High School Diploma</i>	Hawassa, Ethiopia

Experience

Eyoha Digital <i>Frontend Developer</i>	Addis Ababa, Ethiopia February 2025 – July 2025
---	--

- Developed a gym discovery and management website using React and Next.js, building responsive interfaces for users and gym administrators.
- Built responsive websites for multiple companies, translating UI/UX designs into reusable and user-focused frontend components.
- Integrated RESTful APIs with frontend applications using TypeScript and JavaScript, connecting interfaces with Node.js, NestJS, and Express.js backends.

Riftronic <i>Software Developer</i>	Addis Ababa, Ethiopia December 2025 – April 2026
---	---

- Developed full-stack applications using React, Next.js, Python, and Node.js, contributing to frontend architecture, API integration, and application features.
- Built and maintained BunaProof, a React and Django platform with role-based access control, PostgreSQL/PostGIS, and workflows for farmers and field agents.
- Developed reusable frontend components and integrated RESTful APIs to connect user interfaces with backend services and database-driven workflows.

Jirtuu Software Labs <i>DSA Instructor, Volunteer</i>	Addis Ababa, Ethiopia July 2026 – September 2026
---	---

- Taught Data Structures and Algorithms through coding exercises and guided students through algorithmic problem-solving.

Projects

Chronize – Event Management Platform

- Contributed to a full-stack event management platform using modern web technologies, implementing responsive interfaces for event creation, discovery, reservations, authentication, and user management.

BunaProof – Agricultural Platform

- Built frontend features using React for a coffee farm management platform, including role-based workflows, field-agent interfaces, and integration with Django REST APIs.

Jegnit – Pregnancy Tracker

- Developed the Jegnit pregnancy tracker website, building responsive and user-focused interfaces for pregnancy tracking, personalized pregnancy information, baby development, and doctor connectivity.
- Built the accompanying React Native mobile application, extending the platform across web and mobile.
- Published the mobile application on Google Play Store, where it maintains a 5-star rating.

AI Mock Interview – AI Platform

- Built a responsive web application for technical and behavioral mock interviews with AI-generated questions, real-time interaction, and automated feedback.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Reusable Components

State & Data: Context API, REST APIs, API Integration, Client-Side State Management

Backend: Node.js, Express.js, NestJS, Python, Django

Databases: PostgreSQL, MongoDB

Development: Git, GitHub, Docker, Linux, AWS, Figma, VS Code

CS Fundamentals: Data Structures and Algorithms, Object-Oriented Programming, Databases, Software Engineering

Certifications

Next.js: Build Dynamic & Fast Web Applications; IBM Developing Back-End Apps with Node.js and Express; Node.js & MongoDB: Developing Back-end Database Applications; Next.js: Build Dynamic & Fast Web Applications; Introduction to Cloud Computing;
